Location: Ayr, Ontario (Near Cambridge, Kitchener/Waterloo)
Hours of Work: Monday to Thursday 8:00AM-4:30PM; Friday 8:00AM-2:00PM
Benefits: Comprehensive Health and Dental, Pension Plan, Course Reimbursement Program and many others.

Bend All Automotive ULC (BAA) is a leading supplier of Automotive Components and Automation Tooling Equipment. BAA supports customers worldwide with leading technology through product design, prototyping, product validation, tool building and a flexible streamlined manufacturing process. Our expertise is not limited to standard forming techniques, but entails the utilization of synchronized manufacturing systems that provide our customers with cost effective and mistake proof solutions.

Primary responsibilities/accountabilities:

- Responsible for the technical coordination of engineering changes during product development and launch phases
- Ambassador for the company with the customer base to provide ongoing engineering support
- Coordinates with Business Development Manager to develop the price model for new business for the purpose of program quotations
- Leads weekly APQP activities by communicating and assigning customer deliverables to the internal cross functional team; reports deliverables and expected timelines to the Business Development Manager
- Accountable for communicating prototype requirements internally to ensure completion within specified timelines
- Responsible for coordinating pre-production EDI requirements to the Supply Chain to ensure readiness for shipping
- Coordinates program activities by providing technical and project support to internal and external customers from statement of requirements through prototyping and production launch activities to start of regular production
- Other deliverables as assigned to ensure the success of the program

Qualifications (education & skills required):

- Post-Secondary education in Engineering preferably mechanical
- Minimum of 3 years Engineering experience in an automotive manufacturing environment preferably Tier 1 or OEM

- Ability to analyze and interpret blueprint specifications using the principles of GD&T
 - Practical knowledge of gauge and tooling design
 - Thorough knowledge of Quality Management Systems (TS16949)
 - Ability to travel internationally (up to 10%)
-

We look forward to meeting qualified candidates for this opportunity and encourage those who are interested to submit a resume, outlining salary expectations, to Human Resources, email: careers@bend-all.com

Only candidates that are suitable for this role will be interviewed. Thank you for your interest in wanting to join a strong and committed team of professionals.

Bend All is committed to promoting accessibility for Ontarians with disabilities and complying with the Accessibility for Ontarians with Disabilities Act, and makes accommodations available for applicants with disabilities in its recruitment processes. When an applicant for employment is chosen to participate in an assessment and/or the selection process, reasonable accommodations are available upon request in relation to the materials or processes to be used.
